Stoke Mandeville Hospital

Radiographer

Job ref: 434-SS630-B  Salary: £25,783 - £34,530 pa
Hours: f/t 37.5 pw

We are looking for an enthusiastic radiographer who likes a challenge and wishes to work in a busy, friendly and motivated team in Buckinghamshire Healthcare.

This post will be based at Stoke Mandeville but the successful applicant may be expected to work cross-site.

The Radiology service undertakes over 310,000 examinations per annum and the Stoke Mandeville site provides a full range of services including the world renowned National Spinal Injuries Centre.

Radiology provides MRI, CT, Ultrasound and Nuclear Medicine as well as general and AE. There is a 5 bed day-case unit within the Stoke Mandeville department set up to support the busy vascular interventional service.

There is a large Role Extension program across the trust with Radiographers and Nurses regularly performing CT Guided BOTOX Injections, U/S guided Prostate Biopsies, Fluoroscopy guided Hip and Shoulder Injections, PICC Line insertions and Skeletal plain film reporting.

There are dedicated staff and training facilities in each Department and an active audit/teaching programme. The departments also provide clinical placements for under graduate students. We are keen to provide development and training opportunities and dependent on service needs, will introduce Radiographer Role Extension.

Successful candidates must be registered with the HCPC.

If you would like further information or to arrange an informal visit please contact Andrew Wainwright, Operational Manager on 01296 316917.
