Guernsey is in the English Channel and offers its residents a great quality of life. It’s the perfect escape for those seeking a laid-back yet adventurous lifestyle, with everything you want within easy reach of where you live. Whatever your role in healthcare, working in Guernsey or Alderney will change your life for the better and provide a job with plenty of rewards.

The Guernsey Health and Social Services Department provides integrated health and social care to the people of Guernsey and Alderney, it is the largest single employer in the islands with approximately 2,000 staff across the whole organisation.

The Princess Elizabeth Hospital is a 250 bed district general hospital. The Radiology Department has a fully integrated on and off island PACS system, DR/CR general radiography, fluoroscopic and angiographic procedures, ultrasound, MR, CT and NM facilities. The department is in the process of a comprehensive equipment replacement programme, investing in the latest state of the art imaging systems.

We cover the costs for shortlisted candidates to be interviewed in Guernsey and successful applicants will also benefit from a competitive salary, generous relocation package, subsided accommodation/rent assistance and bonus scheme (terms and conditions apply).

Further information on these jobs, and more, can be found at www.gov.gg/jobs and further information about Guernsey’s Health and Social Services Department and working and living in Guernsey can be found at www.gov.gg/healthcarejobs.

Applicants should contact Alistair Richards, Services Manager, Radiology on 01481 725241 ext. 4170. A full job description and application pack can be obtained from our recruitment team directly on healthjobs@gov.gg or tel. 01481 747394. Closing Date: 28 February 2015
