Cobalt is a medical charity providing state-of-the-art diagnostic imaging services. At the forefront of clinical developments, our imaging services are provided from the Cobalt Imaging Centre in Cheltenham and through a fleet of mobile MRI scanners.

Cobalt is ISO 9001:2008 quality assured and was also the first diagnostic imaging service in the UK to attain the Imaging Services Accreditation Scheme (ISAS) standard, ensuring safe, patient focused care and high quality services.

Due to an expansion in our services, we are seeking experienced, enthusiastic and highly motivated Radiographers to join our MRI and PET/CT teams.

**MRI Radiographer**

Working within the Imaging Centre in Cheltenham and also at various mobile locations in the UK. Cobalt has a fleet of 5 mobile MRI scanners including Europe’s first 3.0 Tesla mobile MRI service and the World’s first digital broadband Philips Ingenia 1.5T and 3.0T mobile MRI scanners. Philips experience would be advantageous. Cobalt is also a leading provider of MRI education hosting a number of internationally renowned MRI courses.

**MRI Mobile Radiographer - North West Region**

Due to expansion of our mobile MRI service in the North West region of the UK we are seeking an experienced mobile radiographer to work at various mobile locations predominantly in this area.

**PET/CT Radiographer**

Cobalt provides the NHS PET/CT service to a population of over two million from the Cobalt Imaging Centre, scanning approximately 2,500 patients each year. The Charity is also involved in research and provides PET/CT training and education to local clinicians. PET/CT experience would be an advantage but not essential as full training can be given.

An attractive remuneration and staff benefits package is on offer to the successful applicants able to evidence appropriate levels of skills and experience.
