

RETURN TO RADIOGRAPHY

Thinking of returning to Mammography?

After a gap of over 20 years Moyra Isherwood returned to radiography and for the last 5 years has specialised in mammography. She identifies the following key pros and cons:

The Pros:

- ✓ Improved job satisfaction & self-confidence
- ✓ Opportunity to study for new qualification
- ✓ Specialising in Mammography required no out of hours working-helping work-life balance

The Cons:

- ? Re-registering with HPC
- ? Reduced number of return to practice courses available
- ? Mammography workload can be pressurised

Breast Care Unit Milton Keynes General Hospital

Moyra Isherwood
Senior Radiographer
