

# What radiographers need from our next government to deliver the care our patients deserve

## Patient care

### Empowering people

- Develop career opportunities
- Improve staff wellbeing
- Let employees control their working lives

### Improving population health

- Give people time to talk to patients
- Develop professional skills
- Provide support to counsel patients

### Supporting health and care professionals

- Recruit more staff
- Invest in training
- Encourage role development
- Improve and protect employment rights

### Improving clinical efficiency and safety

- Invest in latest technology
- Provide time for professionals to learn and reflect
- Recruit and retain the best professionals

### Supporting clinical care

- Listen to what patients want and respond
- Train more students
- Fund apprenticeships
