FOR THE YEAR ENDED 30 SEPTEMBER 2022**

MEMBERS OF THE UK COUNCIL (DIRECTORS OF THE SOCIETY OF RADIOGRAPHERS)

For the period of this Annual Report and until 15th February 2023.

Elected Officers

President	To 20.07.22	Claire Donaldson
	From 20.07.22	Ross McGhee
President Elect	To 20.07.22	Ross McGhee
	From 20.07.22	David Pilborough
Vice President	To 20.07.22	David Pilborough
	From 20.07.22	Thomas Welton
Immediate Past President	To 20.07.22	Christopher Kalinka
	From 20.07.22	Claire Donaldson

Regional Representatives

Scotland	Claire Donaldson
	Ross McGhee
	Sharon Stewart
Yorkshire & North Trent	Helen Adamson
Northern	Sarah Burn
North West	Thomas Welton
Northern Ireland	Gill Hodges
Wales	Gareth Thomas (to 20.07.22)
	Mark Sherratt (from 20.09.22)
	Christopher Kalinka
Midlands	David Pilborough
Eastern	Susan Webb (to 20.07.22)
	Rachel Nolan (from 20.07.22)
London	Vassilios Nevrides
South East	Robin Bickerton
South West	Katie Thompson

SENIOR OFFICERS OF THE SOCIETY OF RADIOGRAPHERS

Chief Executive Officer	Richard Evans OBE
Executive Director of Professional Policy	Charlotte Beardmore
Executive Director of Industrial Strategy & Member Relations	Dean Rogers
Executive Director of Finance and Operations	Dilip Manek

The Senior Officers listed above are not members of the Board of Directors of the Society of Radiographers

THE COLLEGE OF RADIOGRAPHERS BOARD OF TRUSTEES (CBOT)

Dr Philip Cosson	
Claire Donaldson	Resigned 09.09.22
Robert Emery	Appointed 08.12.21
Gill Hodges	
Dr Marcus Jackson (Chair from 07.12.22)	
Julie Jones	Resigned 09.09.22
Christopher Kalinka	
Sandra Mathers (Chair to 07.12.22)	Resigned 07.12.22
Ross McGhee	
David Pilborough	
Karen Smith	
Dr Nicholas Spencer	Appointed 08.12.21
Alison Vinall	
Susan Webb	
Thomas Welton	Appointed 07.07.22
Ian Wolstencroft	

The Council members and College Trustees are indemnified by a directors and officers insurance.

**THE SOCIETY OF RADIOGRAPHERS
REPORT OF THE COUNCIL
FOR THE YEAR ENDED 30 SEPTEMBER 2022**

ELECTION OF PRESIDENTIAL OFFICERS

In July 2022 Ross McGhee was duly elected President; David Pilborough President-Elect and Thomas Welton Vice-President for the coming year. Claire Donaldson took on the role of Chair of Council and Immediate Past President.

BALLOTS FOR COUNCIL OFFICERS

Four members of the UK Council reached the end of their term of office in July 2022.

Sarah Burn, regional representative for the Northern Region; and Robin Bickerton, regional representative for the South East Region) were re-elected.

Sue Webb (Eastern Region) and Gareth Thomas (Wales) reached the end of their eligible terms for re-election and stood down.

Rachel Nolan, regional representative for Eastern Region; and Mark Sherratt, national representative for Wales were elected.

COUNCIL MEETINGS

During the period of this Annual Report, UK Council was led by Claire Donaldson until 20th July 2022 when the current President, Ross McGhee took office.

DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the members of Council, as the directors of the Society, to prepare financial statements for each financial year. Under that law the members have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards) and applicable law.

Under company law Council must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Society and of the surplus or deficit of the company for that period. In preparing these financial statements, the members of the Council are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Society will continue in business; and
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements.

Council is responsible for keeping adequate accounting records that are sufficient to show and explain the Society's transactions and disclose with reasonable accuracy at any time the financial position of the Society and enable them to ensure that the financial statements comply with the Companies Act 2006. Council is also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

So far as each of the Directors at the date of this report is aware, there is no relevant audit information of which the company's auditor is unaware. Each Director has taken all the steps that they ought to have taken as a Director in order to make himself / herself aware of any relevant audit information and to establish that the company's auditor is aware of that information.

THE OBJECTS FOR WHICH THE SOCIETY IS ESTABLISHED ARE:

- To promote and develop for the public benefit the science and practice of radiography and radiotherapeutic technology and allied subjects;
- To promote, study and research work in radiography and radiotherapeutic technology and allied subjects and to publish the results of all such study and research;
- To further public education therein;
- To protect the honour and interests of persons engaged in the practice of radiography and radiotherapeutic technology and allied subjects including the regulation of relations between such persons and employers and employers' associations.
- To further the objects set out in section 72 of the trade Union and labour Relations (Consolidation) Act 1992 including any statutory modification or re-enactment thereof for the time being in force.
- To further all such objects which a trade union may lawfully pursue in accordance with statute.

**THE SOCIETY OF RADIOGRAPHERS
REPORT OF THE COUNCIL
FOR THE YEAR ENDED 30 SEPTEMBER 2022**

STRATEGIC REPORT

SUMMARY OF THE GROUP BUSINESS

The Society of Radiographers (SoR) is a membership organisation and is the professional body and trades union for non-medical personnel within health-care diagnostic imaging and radiotherapy services in the UK. The board of Directors of the SoR is the UK Council, formed of 14 members that are elected to office.

The College of Radiographers (CoR) is a wholly owned charitable subsidiary of the SoR. The College oversees standards of radiography education and service provision; the development and promotion of research by radiographers and ensures that the views and interests of patients and the public are understood and have influence in the business of both the SoR and CoR. The Board of Trustees of the CoR includes members appointed from UK Council of SoR and externally appointed individuals.

PERFORMANCE OF THE SOCIETY AND COLLEGE IN 2021 - 2022

The Society Council and College Trustees oversaw work in line with the respective strategic plans agreed in the previous year.

For the SoR the strategic priorities are organised under the following headings:

- **Your profession, your union** (Member Engagement)
- **Wider participation, stronger representation** (Advocacy and Involvement)
- **Leading change in learning and development** (Learning and Development)
- **Recognition and respect for radiography** (Profile and Impact)
- **Serving all, representing all, welcoming all** (Equality, Diversity and Inclusion)
- **Effective, sustainable organisation** (Evidence and Governance)

Work under these headings is summarised below

Your Profession, Your Union

Objectives in this area concern maintaining the SoR as the trades union and professional body of choice for the radiographic workforce; communicating effectively with and responding to members to encourage engaged and active participation and improving member appreciation of the role of the College of Radiographers.

The year saw SoR members working in circumstances still very severely affected by the Covid-19 pandemic. Severe pressures in imaging and radiotherapy services were accompanied by growing dissatisfaction with the UK Government's attitude to pay and reward for staff working in the NHS. Communication with and support for members was prioritised.

An extensive programme of work through professional advisory groups, all working virtually, ensured that professional policy continued to be developed with member input. A Leadership Mentor Scheme and new programme of Essential Training for Managers were launched. Work was completed on a complete review of the Education and Career Framework for Radiography.

It was pleasing to be able to return to a face-to-face format for some events, including UKIO and the National Conference for Radiology Managers.

Wider participation, stronger representation

Objectives in this area develop the theme of member participation, including in career promotion, leadership and promotion of the roles of accredited representatives. There is emphasis on developing engagement and participation in students and radiographers in the early phase of their careers and objectives to promote influence within the SoR up to UK Council level.

It was good to be able to hold our first Annual Delegates' Conference since 2019. Although Covid precautions dictated a smaller number of participants, the event provided excellent engagement with members and lively debates.

New professional careers & promotional literature were developed and deployed to improve knowledge of radiography as a career choice.

The Students' and New Professionals' Forum has continued to do excellent work to raise the profile of SoR.

**THE SOCIETY OF RADIOGRAPHERS
REPORT OF THE COUNCIL
FOR THE YEAR ENDED 30 SEPTEMBER 2022**

Leading change in learning and development

Objectives in this area concern SoR influence in education and service provision, the provision of a sustainable workforce in imaging and radiotherapy services and ensuring radiography is recognised as an attractive and secure career option.

A great deal of work has begun in collaboration with Health Education England. This focuses on workforce development in line with our Education and Career Framework and to meet the needs of services in the future. The work is applicable UK-wide.

SoR officers have been assisting the Health and Care Professions Council as they revise the radiography-specific Standards of Proficiency.

In service quality management, a version of the Quality Standard for Imaging specifically for use in imaging networks was launched.

It has been good to see the SoR guidance on Inclusive Pregnancy status checks being widely and successfully adopted.

Recognition and respect for radiography

Strategic objectives within this priority area include development of the profile of the SoR, including in the media, as the authoritative voice in imaging and radiotherapy. Communication and content strategies will aim to ensure and measure effective sustainable communications. Through these we will raise the profile of radiography.

The regular member newsletter, Synergy was re-launched in a brighter and more accessible format this year. Particular attention is being given to the depiction of members of the radiography workforce and profession. Images are selected to portray a diverse membership in line with recommendations from our EDI review (see below).

The SoR has contributed prominently to work to plan a sufficient workforce for the future of healthcare in the UK.

After two years delay, caused by the Covid-19 pandemic, it was good to celebrate the centenary of the SoR and to profile the achievements of members of the profession as we awarded our highest professional honours.

Serving all, representing all, welcoming all

Objectives in this area concern all aspects of equality, diversity and inclusion (EDI) and specifically the UK Council's pledge in the wake of the George Floyd murder to become an anti-racist organisation. The objectives focus on predominantly internal work in the organisation but also indicate improved training for workplace representatives so that the experience of members in their workplaces will also be improved over the period of the strategy.

The SoR received the results of its externally led review of Equality, Diversity and Inclusion. During the review process, a number of improvements were instigated, in collaboration with the review consultants. This momentum has been maintained in the formation of a task group with the remit to oversee work on the most urgent recommendations. It is expected that this process will include a longer-term oversight group that will ensure a continuous process of improvement and implementation of best practice in all areas of diversity, equality, inclusion and belonging.

The majority of the report recommendations are internally focused. However, the SoR Annual Delegates' Conference approved a resolution to implement workplace equalities representatives. It was also resolved that the organisation would appoint an equalities lead member of staff. These actions will follow work commenced to deal with all of the urgent actions, which was under way at the year end.

Effective, Sustainable Organisation

The objectives under this heading recognise the essential requirement for the SoR as a membership body to continue to grow the numbers of people in membership. They also concern the need for efficient, accountable and effective structures, policies and systems. The organisation will develop a plan to become carbon neutral by 2030.

Membership growth has continued this year. However, we observed a lower than normal growth rate in the early part of 2022. Decisions to consider the impact of the cost of living crisis on SoR members and planning ahead for the coming year in terms of subscriptions and budgeting were taken. We commenced a process to ensure our membership benefits are reviewed and marketed effectively.

The governance review previously reported was completed and delivered. A governance manager has been appointed and early actions are being implemented with oversight from our boards through a task group.

The President and CEO are members of an NHS England environmental sustainability group working to develop good practice amongst allied health professions.

**THE SOCIETY OF RADIOGRAPHERS
REPORT OF THE COUNCIL
FOR THE YEAR ENDED 30 SEPTEMBER 2022**

For the CoR the strategic priorities are organised under the following headings:

- **Recognising the College of Radiographers** (College Identity)
- **Leading Research in Radiography** (Research)
- **Setting standards for safer services** (Education and Accreditation)
- **Amplifying the patient voice** (Patient Voice)
- **Securing the future** (Organisational Sustainability)
- **Learning Organisation** (Governance Review and Evidence)

Work under these headings, where this is distinct from progress already described in the SoR strategy, is summarised below.

Recognising the College of Radiographers

Objectives in this area concern increasing the understanding of the role of the CoR as charitable subsidiary to the SoR. This will be underpinned by the outcomes of the governance review (see below) which is being conducted across both SoR and CoR.

For the first time, the CoR published its Impact Report as an interactive on-line document. This includes case studies, which were launched at UKIO in July 2022. The full report followed and was published in August 2022.

As a result of the governance review, work commenced to better define working between the boards of the SoR and CoR. A joint board training event was held in the summer of 2022 and changes made to the CoR Articles of Association to enable clarity over appointments of the chair. A vice chair position was instituted.

Leading Research in Radiography

Objectives under this heading look at the entire research strategy for the profession.

Applications for research grants from the CoR continued to increase. The prominence of the SoR peer reviewed journal *Radiography* increased in the year with much of the published content being supported by the CoR.

The CoR Industry Partnership Scheme, which has provided a great deal of the financial support for radiographer research, was re-launched at the UKIO conference.

The Fourth Edition of the CoR Education and Career Framework was completed and approved for publication. This includes the expectation / requirement for research at all levels. Research role templates included.

Setting standards for safer services

Objectives in this area concern the leading role that the College wishes to take in setting standards for workforce development in the UK and that CoR standards are recognised and used for the development of the profession internationally.

Work to respond to the radiography workforce shortage is continuing as a high priority, bringing focus on education, training and development requirements fit for the future.

The Approvals and Accreditation Board of the CoR has been engaged in the busy process to review and oversee standards as new providers of radiography education emerge. The practice education accreditation process has been reviewed, relaunched and promoted.

The CoR in collaboration with external stakeholders is providing leading work in standards for safe services (e.g. the Quality Standard for Imaging), ultrasound education (the Consortium for the Accreditation of Sonographic Education) and on emerging technologies such as Artificial Intelligence.

Amplifying the patient voice

Objectives within this priority concern the essential work of the College and Society to be able to hear and respond to the views of users of radiography services. This recognises the need for patients to be heard from all standpoints in order to inform leading policies on inclusion, cultural adaptation and social deprivation.

Governance review recommendations for changes to the CoR Board (see above) include a greater voice for patients and the prospect of a patient trustee.

CoR takes the lead in organising and promoting a patient voice session in the programme for UKIO annually.

The external EDI review was received and adopted by the CoR. The task group includes the Board Chair. Links made with experts to support the development of the learning and autism guidance for the radiography profession.

**THE SOCIETY OF RADIOGRAPHERS
REPORT OF THE COUNCIL
FOR THE YEAR ENDED 30 SEPTEMBER 2022**

Securing the Future

Objectives under this heading reflect the SoR priority on Effectiveness and Sustainability.

The College participated in the external reviews for EDI and governance. Both of these reports (see above) have been adopted and will inform work for the remainder of this strategic period.

Risk management Group formed. This received training to introduce current best practice. Aims to refine the CoR risk register and processes for boards.

Many meetings and interactions now occur routinely online. CoR continues to work on reducing environmental and financial impact of operations.

Learning Organisation

This priority area develops objectives concerning the outcomes of the governance review, specifically to ensure fitness for purpose of organisational policies and processes. Similarly, in the light of the EDI review, the College aims to ensure a more appropriate racial diversity in its Board of Trustees. There are objectives recognising the rapid changes affecting radiography education and professional practice.

Governance Task Group recommendations come regularly to Board for agreement.

Governance Manager appointed and working well across the group. Articles change proposals approved.

CoR reviewed appointment processes for new trustee in line with inclusivity guidance as part of the EDI review.

INVESTMENT POLICY

Council has an established Investment Committee, set up jointly with the College, which reports to it twice each year on the performance and construction of the portfolios. The Committee's monitoring and review of the portfolios during the year includes formal meetings with the appointed investment manager to consider performance against agreed benchmarks and in the context of the overall strategy and economic outlook. In determining the investment strategy on behalf of Council, the Investment Committee considers the income requirements, the risk profile, ethical policy and the investment manager's view of market prospects. The ethical policy precludes investment in armaments and tobacco stocks. Investments include cash balances (including short-term bank deposits) as well as the portfolio of listed investments. The Investment Committee is close to completing work to revise and update the Society and College's investment policy in line with current best practice and to ensure it aligns with the long term aims of the organisation.

RISK MANAGEMENT

The Society and College maintain a joint register of risks. This sets out the nature of the risk, the likelihood of an occurrence and overall impact should the risk occur. The areas of risk accountability are also logged. The risk register is available to Directors and Trustees to view throughout the year and is formally considered by each board at least once each year.

Review of the format for the register and processes for active board engagement in risk management were subjects reviewed in the governance exercise. Both boards indicated this as a strategic priority.

The principal risk identified by the Society is the potential failure to attract and retain members in sufficient numbers to maintain and grow the activities of the organisation. The Society manages this risk by continuing to focus on member relations, providing relevant and highly valued member benefits, and ensuring all staff, Council members and representatives are aware of the vital importance of promoting and expanding membership. The Society also continues to use its influence, both locally and nationally, to help shape the future workforce in healthcare provision.

We have adequate financial resources and are well placed to manage the business risks. Our planning process, including financial projections, has taken into consideration the impact of Covid-19, the current economic climate and its potential impact on the various sources of income and planned expenditure. We will continue to monitor this situation closely but believe the organisation is well placed to continue to operate effectively in the current environment.

**THE SOCIETY OF RADIOGRAPHERS
REPORT OF THE COUNCIL
FOR THE YEAR ENDED 30 SEPTEMBER 2022**

MEMBERSHIP REVIEW

The commentary that follows further supports our Strategic objective, Effective Sustainable Organisation: Membership of SoR will continue to grow and SoR finances are managed well; assets are safeguarded and employed effectively.

Our membership, which constitutes 90% of our income, has increased on average by over 748 members and £277k in comparison to 2021 and is expected to continue to increase at a modest rate. Our overall expenditure is expected to continue to be managed within our budgets. In addition, careful management of finances and budgets will continue, and our quarterly performance and forecast will be reported to both Council and CBoT.

A combination of the ongoing issues with the NHS Pay Award and the increased pressures members were facing due to the Cost-of-Living Crisis, UK Council decided to hold any subscription increase for any all-membership categories for 2022/2023.

To supplement the conversation around potential subscription increases, the Executive Directors tasked the Head of Departments to undertake a substantive review of the membership benefit package.

As is the practice, we will be reporting the average membership data for the past five years within our statutory accounts, as shown in the chart below. It is pleasing to note that there has been an increase in total average membership of 748 members with an increase of 846 in the average total paying members over the last twelve months. There has been a steady increase in average student membership to 3,549. Student recruitment will continue to be our focus in 2022/23.

As shown below, there has been a steady growth in the averages for members with student numbers on the increase again after a slight decrease in September 2020.

**THE SOCIETY OF RADIOGRAPHERS
REPORT OF THE COUNCIL
FOR THE YEAR ENDED 30 SEPTEMBER 2022**

FINANCIAL RESULTS

In terms of the overall financial performance and position, the Society's consolidated financial statements show a surplus (before actuarial losses/gains) of £109,268 (2021: £2,326,647) with total funds at the end of the year of £12,505,701 (2021: £11,024,433).

The total income for the group increased by 15.8% to £9,663,665 (2021: £8,344,113). Membership income was £7,997,536 and had risen by 3.6% from 2021 (£7,720,074).

It is pleasing to note that our other operating income as increased by £1m to £1.6m mainly due to increase in grants donation, project income, journal and website income and other income.

Total group expenditure was £8,875,000 (2021: £7,625,314). This is an increase of £1,249,686 or of 16.4% compared to last year.

Other operating charges have increased by £693k (22%) to £3,842 compared to £3,149k in 2021.

The group has substantial investment portfolios representing some 73.3% (£10,108m) of its total net assets excluding pension liability. The portfolio has increased by £71k compared to last year when the portfolio stood at £10,037m.

Income generated by these portfolios during the year was £249,770 (2021: £219,860) and net investment losses were (£929,167) (2021: £1,387,988). Income is managed on a total return basis within the portfolio. Over the longer term, performance continues to be strong, producing annualised returns of 1.3%, 2.7%, 5.8%, and 7.2% over 3, 5, 10 years and since inception.

The pension liability shown in the financial statements as at 30 September 2022 decreased from £2,476k as at 30 September 2021, to £1,289k as at 30 September 2022.

The Actuary presented the preliminary results of the 2022 triennial actuarial valuation to the Pension Board of Trustees at their meeting in November 2022. The Trustees are in discussion with the actuary and employer to agree a new schedule of contribution from July 2023 and repair deficit contribution from September 2023, to recommend to both the boards. It is envisaged that the actuary's report and recommendations will be presented to both Council and CBoT around early Summer 2023 with the implementation of the new schedule of contributions effective from July 2023.

The group's Statement of Financial Position remains strong with total funds increasing by £1,481,268 to £12,505,701 (2021: £11,024,433).

Tangible fixed assets decreased by (£98,780) to £1,105,899. Cash balances increased by £787,051 to £3,131,3832 (2021: £2,344,331).

The Society's General Fund, excluding the pension scheme reserve, stood at £6,634,388 (2021: £6,807,631). Unrestricted funds held by the College were £6,049,416 (2021: £6,482,075). The Society's Political Fund continued to grow with four quarterly collections of the levy taking place during the year.

We have set out above a review of financial performance and the group's reserves position. We have a reasonable expectation that we have adequate resources to continue in operational existence for the foreseeable future. We believe that there are no material uncertainties that call into doubt the company's ability to continue. The accounts have therefore been prepared on the basis that the Society is a going concern.

THANKS

Council wishes to thank the President, the immediate Past-President, the President-Elect, and the Vice-President for their guidance and leadership during this session. Council also wishes to thank the CEO, Richard Evans, and the Executive Directors, Officers, and all other staff of the organisation.

AUDITOR

Crowe U.K. LLP have expressed their willingness to continue as auditors for the next financial year.

This report was approved by Council on 15th February 2023, including in their capacity as company directors approving the Directors' and Strategic Reports contained therein.

Richard Evans OBE, Chief Executive Officer

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF THE SOCIETY OF RADIOGRAPHERS

Opinion

We have audited the financial statements of the Society of Radiographers ('the parent company') and its subsidiaries ('the group') for the year ended 30 September 2022 which comprise the Consolidated statement of Comprehensive Income, the Society and Group Statement of Financial Position, the Consolidated Cash Flow Statement and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the group's and of the parent company's affairs as at 30 September 2022 and of the group's income and expenditure, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006 and the Trade Union and Labour Relations (Consolidation) Act 1992.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information contained within the annual report. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion based on the work undertaken in the course of our audit

- the information given in the strategic report, which includes the directors' report prepared for the purposes of company law, for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In light of the knowledge and understanding of the group and the parent company and their environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate and proper accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit

Responsibilities of Directors

As explained more fully in the directors' responsibilities statement set out on page 3, the directors are responsible for the

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF THE SOCIETY OF RADIOGRAPHERS

preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Details of the extent to which the audit was considered capable of detecting irregularities, including fraud and non-compliance with laws and regulations are set out below.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We identified and assessed the risks of material misstatement of the financial statements from irregularities, whether due to fraud or error, and discussed these between our audit team members. We then designed and performed audit procedures responsive to those risks, including obtaining audit evidence sufficient and appropriate to provide a basis for our opinion.

We obtained an understanding of the legal and regulatory frameworks within which the group and the parent company operates, focusing on those laws and regulations that have a direct effect on the determination of material amounts and disclosures in the financial statements. The laws and regulations we considered in this context were the Companies Act 2006 together with the Charities SORP (FRS 102). We assessed the required compliance with these laws and regulations as part of our audit procedures on the related financial statement items.

In addition, we considered provisions of other laws and regulations that do not have a direct effect on the financial statements but compliance with which might be fundamental to the parent company's and the group's ability to operate or to avoid a material penalty. We also considered the opportunities and incentives that may exist within the parent company and the group for fraud. The laws and regulations we considered in this context for the UK operations were General Data Protection Regulation (GDPR), taxation legislation, and employment legislation.

Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the directors' and other management and inspection of regulatory and legal correspondence, if any.

We identified the greatest risk of material impact on the financial statements from irregularities, including fraud, to be within judgement and estimates, and the override of controls by management. Our audit procedures to respond to these risks included enquiries of management and the Council about their own identification and assessment of the risks of irregularities, sample testing on the posting of journals, reviewing accounting estimates for biases, and reading minutes of meetings of those charged with governance.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it. In addition, as with any audit, there remained a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

**THE SOCIETY OF RADIOGRAPHERS
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 30 SEPTEMBER 2022**

1. COMPANY INFORMATION

The Society of Radiographers was incorporated in England under the Companies Act with Limited liability and has a licence to dispose of the word "Limited" in its title. The Society is a company limited by guarantee registered in the UK under number 169483. The Society's registered office is Quartz House, 207 Providence Square, Mill Street, London SE1 2EW.

2. ACCOUNTING POLICIES

a) Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with FRS102, the financial reporting standard applicable in the UK and Ireland.

b) Basis of consolidation

The consolidated financial statements comprise the accounts of the Society of Radiographers and its subsidiary, the College of Radiographers.

No separate profit and loss account has been presented for the Society of Radiographers, as permitted by section 408 of the Companies Act 2006

c) Turnover - membership subscriptions

An annual subscription is paid by members each year to The Society of Radiographers, which provides the benefits arising from both The Society and The College of Radiographers and is accounted for on a receivable basis. A contribution of £2,220,000 (2021: £2,205,000) representing 27.8% (2021: 28.6%) of the subscription income, has been made to the College during the year.

d) Fixed Assets, depreciation and amortisation

Tangible and Intangible fixed assets are capitalised where their cost exceeds £500. Smaller amounts are sometimes capitalised, provided the expected useful life of the asset is in line with the appropriate period set out below;

Depreciation is provided on the straight-line basis over the useful life of the asset as follows:

Office furniture and equipment	over ten years
Computer equipment	over four years

Amortisation of software is charged on a straight-line basis over four years. Website development is charged on a straight-line basis over five years. This is the expected timeframe for the replacement of these assets.

e) Expenditure

Expenditure is accounted for on an accruals basis and includes irrecoverable VAT under partial exemption rules.

f) Pension costs

The Society operates a defined benefit pension scheme in conjunction with The College of Radiographers for the benefit of its employees. The current service cost, calculated in accordance with the requirements of FRS102, is charged to the income and expenditure account each year. Pension cost is assessed in accordance with the advice of a qualified actuary. Actuarial gains and losses arising are recognised within the statement of comprehensive income under the heading 'actuarial gains/(losses)'. .

g) Fixed Asset Investments

Listed investments are stated at market value. Gains and losses on investments are calculated as the difference between market value at the start and end of the financial year and are recognised in the profit and loss account.

h) Going Concern

The financial statements have been prepared in accordance with applicable United Kingdom law and accounting standards. The financial statements have been prepared on a going-concern basis as we have a reasonable expectation that we have adequate resources to continue in operational existence for the foreseeable future. The Society's membership and subscription income continue to grow. The Society also has substantial reserves. Financial forecasts are regularly reviewed by the directors. We believe that there are no material uncertainties that call into doubt the company's ability to continue. The accounts have therefore been prepared on the basis that the Society is a going concern.

**THE SOCIETY OF RADIOGRAPHERS
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 30 SEPTEMBER 2022**

2. ACCOUNTING POLICIES (CONTINUED)

i) Key judgements and estimates

In the application of the Society's accounting policies, Directors are required to make judgements, estimates, and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects the current and future periods.

The key sources of estimation uncertainty that have a significant effect on the amounts recognised in the financial statements are described in the accounting policies and are summarised below:

Pension liabilities – The Society recognises its liability to its defined benefit pension scheme which involves a number of estimations as disclosed in note 7.

j) Financial instruments

The group has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at amortised cost using the effective interest method. Financial assets held at amortised cost comprise cash at bank and in hand, together with trade and other debtors. Financial liabilities held at amortised cost comprise trade and other creditors.

Investments held as part of an investment portfolio are held at fair value at the Balance Sheet date, with gains and losses being recognised within income and expenditure.

At the statement of financial position financial assets at fair value through income or expenditure were £10,108,291 (2021: £10,037,438).

k) Fund accounting

The unrestricted and restricted funds shown in the financial statements are those of the College of Radiographers. Unrestricted funds are available for use at the discretion of the College Trustees in furtherance of the objects of the Charity. Restricted funds are limited in their use, either geographically or for a particular purpose, by conditions imposed by the donors.

3. MEMBERS' GUARANTEE

The Society is a company limited by guarantee. In the event of a winding up, the liability of each member would not exceed £1.

4. OTHER OPERATING INCOME

	2022	2021
	£	£
Journal and website income	254,272	233,853
National Councils and Regional Committees	1,946	3,355

Conference income	405	3,016
Grants and donations (including restricted income)	901,978	15,571
Project income	201,544	95,726
Sponsorship and commercial partnerships	28,245	67,995
Other income	76,382	12,751
	1,612,679	568,879

**THE SOCIETY OF RADIOGRAPHERS
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 30 SEPTEMBER 2022**

5.	EMPLOYEES	2022	2021
	The average number of employees in the year was 59 (2021: 54)		
	The average numbers in each category are as follows:-	No.	No.
	Senior officers	4	4
	Trade union staff	16	13.5
	Professional and educational staff	15.5	16.5
	Conferences and events staff	4	3
	Membership and communications	6.5	5
	Finance and administration staff	13	12
		59	54
		2022	2021
	Employment costs:	£	£
	Wages and salaries	3,368,999	3,010,707
	Pension fund administration, governance & life assurance	178,898	150,885
	Social security costs	410,339	346,874
	Pension Scheme current service cost	971,000	824,000
	Total cost of staff employed	4,929,236	4,332,466
	Temporary staff	103,546	143,546
	Total Staffing Cost	5,032,782	4,476,012

There were no termination payments made during the year (2021: £14,120 for one employee).

The members of the Council are the directors of the Society and are not remunerated. The Society offers compensation to the employer of the elected president each year, in recognition of the time commitment required by the role. The Society has agreed to pay Claire Donaldson's employer £18,000, but this amount was outstanding at year end, pending receipt of an invoice from the employer. The Society has also paid £15,000 to Ross McGhee's employer, with £2,500 having been included in expenditure for the year ending 30 September 2022. No amounts were paid in the previous year.

The key management personnel of the Society are the members of the Council and the senior officers shown on page 2 of the Report of The Council. Some of these individuals are also senior officers of the College of Radiographers and therefore the cost of their employment is shared between the two entities. The aggregate remuneration in respect of key management personnel during the year was £564,160 (2021: £516,522).

6.	SURPLUS FOR THE YEAR	2022	2021
	The surplus for the year is stated after:	£	£
	Auditor's remuneration		
	- for audit	29,500	27,750
	- for tax advisory services and training	9,900	8,100
	Depreciation and amortisation	230,593	183,880

**THE SOCIETY OF RADIOGRAPHERS
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 30 SEPTEMBER 2022**

7. ACCOUNTING FOR RETIREMENT BENEFITS

The Society of Radiographers operates a defined benefit pension scheme in the UK which also includes employees of the College of Radiographers. This is a separate trustee administered fund holding the pension scheme assets to meet long term pension liabilities. A full actuarial valuation was carried out at 30 June 2019 and updated to 30 September 2022 by a qualified actuary, independent of the scheme's sponsoring employer. The major assumptions used by the actuary are shown below.

The actuarial valuation at 30 June 2019 showed a deficit of £628,000. The Society agreed with the trustees that it would aim to eliminate the deficit over a period of 3 years and 3 months from 1 July 2020 by payment of annual contributions of £150,000 in respect of the deficit. The College agreed to contribute £40,650 towards this amount annually. In addition and in accordance with the actuarial valuation, the Society agreed with the trustees to pay 23.2% of pensionable earnings in respect of the cost of accruing benefits and will meet expenses of the scheme and levies to the Pension Protection Fund. Member contributions are payable in addition at the rate of 9.0% of contribution salary.

The preliminary results of the actuarial valuation at 30 June 2022 have been presented to the scheme trustees. Discussions are taking place with the Society and College to agree an updated deficit recovery plan and future contribution rates.

The value of the liabilities for active members has been calculated by allocating the individual member liabilities from the 30 June 2019 valuation to either the Society or College and applying the relative proportions to the defined benefit obligation. Where the member has a joint contract of employment, the value of the liability has been allocated equally between the Society and College.

The value of the liabilities for deferred and pensioner members, and the value of the scheme assets, has then been apportioned using the same proportions as the active membership. This approach is consistent with the approach taken in previous years.

The current service cost is allocated in the same proportion as the total employer contributions made during the year. Employer contributions are allocated between the Society and College in the same proportion as salaries.

PRESENT VALUES OF DEFINED BENEFIT OBLIGATION, FAIR VALUE OF ASSETS AND DEFINED BENEFIT ASSET (LIABILITY)

	30 September 2022	30 September 2021
	£'000s	£'000s
Fair value of scheme assets	11,184	16,746
Present value of defined benefit obligation	(12,473)	(19,222)
Deficit in scheme	(1,289)	(2,476)

As all actuarial gains and assets are recognised, the surplus or deficit shown above is that recognised in the statement of financial position.

The above figure may be split between Society and College as follows:

	30 September 2022		30 September 2021	
	Society	College	Society	College
	£'000s	£'000s	£'000s	£'000s
Fair value of scheme assets	7,688	3,496	11,676	5,070
Present value of defined benefit obligation	(8,574)	(3,899)	(13,402)	(5,820)
Deficit in scheme	(886)	(403)	(1,726)	(750)

Market value of listed investments at 30 September	10,108,291	10,037,438	4,530,777	4,882,926

The group's portfolio of securities represented by the listed investments above is managed on behalf of the Society by Rathbones Investment Management Limited. The portfolio of the Society is divided into two accounts. A floating charge applies to the second of these accounts to give effect to a contingent asset guarantee of £1,500,000 granted to the Trustees of the pension scheme by the Society as sponsoring employer. The market value of the account to which this charge applies was £1,944,826 at the end of the year (2021: £2,236,625). Full details of the instrument setting out the specific circumstances in which the floating charge would crystallise into a fixed charge in favour of the pension scheme Trustees have been filed with the Registrar of Companies.

13. SUBSIDIARY UNDERTAKING

The Society owns all of the issued share capital of The College of Radiographers, a registered charity and company (number 1287383). The registered address of the College is the same as that of the Society. The results of the College are shown below. Amounts owing to the Society by the College at year end are shown in note 14. The College's principal activities include the accreditation and provision of education and training for the radiographic workforce, and the support and publication of radiography research.

19. RELATED PARTY TRANSACTIONS

The directors of the Society have the power to appoint Trustees of the Society of Radiographers Benevolent Fund, a charity registered in England and Wales under no. 326398. The Benevolent Fund is therefore a related party. During the year ending 30 September 2022;

The Society did not make a donation to the Benevolent (2021: £5,000). A £100 donation was made by the Society's Regional Committees and National Councils (2021: None). The Society incurred expenditure of £3,600 in respect of administration services provided to the Benevolent Fund by Auriga Services Ltd (2021: £3,250). The fund continues to receive administrative support from employees of the Society.

Except for the above and the transactions with ROC disclosed in note 21, there were no other related party transactions during the year to 30 September 2022.

20. POLITICAL FUND

Members of the Society voted at an EGM in October 2015 and in a subsequent ballot, to adopt political objects as set out in section 72 of the Trade Union and Labour Relations (Consolidation) Act 1992. At the EGM, members also voted to authorise political expenditure under the Companies Act 2006. A political fund was established with a voluntary contribution per member of 60 pence per quarter.

**THE SOCIETY OF RADIOGRAPHERS
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 30 SEPTEMBER 2022**

21. INVESTMENT IN JOINT VENTURES

Radiology and Oncology Congresses

The College of Radiographers, of which the Society owns all of the issued share capital, is a member of Radiology and Oncology Congresses (ROC), a charitable company limited by guarantee (company number 4075344). The other members are The British Institute of Radiology and the Institute of Physics in Engineering and Medicine. Richard Evans, the CEO of the Society and College and Claire Donaldson, who is a member of the UK Council of the Society, are Directors of ROC. Dr Nicholas Spencer, a trustee of the College, was a director of ROC until July 2022. The main objective of ROC is to organise the annual, UK Imaging and Oncology Congress (UKIO).

The results of the ROC Group of companies are shown below.

	2022	2021
	£	£
For the year to 30 September		
Total Income	833,430	239,281
Total Expenditure	(654,083)	(301,634)
Surplus for Year	<u>179,347</u>	<u>(62,353)</u>
As at 30 September		
Fixed Assets	-	-
Current Assets	707,826	390,061
Creditors	(188,679)	(50,261)
Net Assets	<u>519,147</u>	<u>339,800</u>

The College has no legal entitlement to any share of the net assets of ROC and therefore the results of ROC are shown separately to the College.

During the year, the Society paid ROC Events Ltd (a subsidiary of ROC, and of which Richard Evans is also a director) £7,057 in respect of exhibition services and delegate registration fees for UKIO (2021: £2,000). No amounts were outstanding at 30 September 2022 (2021: Nil).

Imaging Quality Improvement Ltd (formerly Diagnostic Imaging Accreditation Ltd)

The College of Radiographers together with The Royal College of Radiologists are members of Imaging Quality Improvement Ltd (IQIL), a company limited by guarantee (company number 06799879). The company changed its name from Diagnostic Imaging Accreditation Ltd to Imaging Quality Improvement Ltd in May 2020 and also adopted new Articles of Association. The main objective of IQIL is to promote continuous quality improvement of imaging services in the UK. A jointly owned standard for quality and improvement (currently QSI) is promoted. Services may be accredited against this standard. This is delivered through a contract with The United Kingdom Accreditation Service (UKAS). Richard Evans is a director of IQIL, appointed by the College. There has been no financial activity during the year and there are no assets or liabilities at the year end.
