PATIENT INFORMATION

SUPPORT THE
RADIOGRAPHY
STRIKE

We are carrying out a **strike** at this trust.

We would rather not strike and interrupt your care, but the government are not listening. **Our workforce is in crisis and you, our patients, deserve better.**

**Strike aims**
You deserve more radiography professionals which will lower waiting lists. This will only happen when the government improves pay and conditions. Learn more here: [www.soc.org/iapatient](http://www.soc.org/iapatient)
We hope you can support us so we can continue to be at the heart of patient care.

**Who are we?**
The Society of Radiographers (SoR) is the trade union and professional body supporting those working within radiography. Have **YOU** had an x-ray, MRI or CT scan, ultrasound, breast screening, or radiation therapy? As a patient going into hospital, 9 out of 10 of you will be seen by a member of the radiography workforce.

To learn more about the SoR please visit: [www.sor.org](http://www.sor.org)
