Deputy Modality Manager

Salary £45,612-£50,261

The General Hospital in Jersey is a district general hospital providing a wide range of general and acute services.

We are looking for an experienced radiographer who has strong clinical skills and who has, or is looking to gain, management experience. The post includes all aspects of general radiography and a rotation to include interventional work, CT or MRI. Evidence of post graduate education is required.

We are an ISAS accredited department so an interest in audit is advantage. CPD is encouraged and supported.

A relocation allowance is available.

If you would like to know more about the role or living and working in Jersey please contact Duncan Depledge or Karran Gurney on 01534 442867.

Closing date for applications is 15th September 2017.
