

About You : You will be a highly motivated professional, with excellent communication skills, initiative and the ability to work effectively within a multidisciplinary team.

You will be enthusiastic with a desire to learn and develop both professionally and personally to benefit our patients, our service and our team.

As a skilled Sonographer you will provide a caring, compassionate approach within our high quality imaging team. You need to be able to work independently, demonstrating a high level of competence and will need to demonstrate excellent communication skills. Ideally candidates should be skilled in general, obstetric and gynaecological ultrasound. Experience in MSK ultrasound would also be an advantage. CPD is well supported and the post holder will participate in regular peer review meetings and audit.

About Us: This newly merged Trust currently operates ultrasound services over four sites and you may be expected to travel between them.

The Ultrasound service is primarily Sonographer led with a range of services covered – Obstetrics, Gynaecology, General ultrasound, head and neck including FNA's, core biopsies, paediatrics, MSK and Contrast. Our Sonographers are given the opportunity to sub-specialise and cover some of the more specialist areas.

We offer flexible working and currently cover shifts from 8am to 8pm plus Saturday and Sunday mornings.
