CLINICAL EXCELLENCE, QUALITY & SAFETY

Extended Scope Sonographer Band 8a

Salary £40,428 - £48,514

Advanced Practitioner Sonographer

Band 7 with 10% R&R Premia - Salary £34,865 - £45,966

The Luton and Dunstable University Hospital delivers a high quality sonographer led service across both Women's Health and General Medical Ultrasound. A fantastic opportunity has arisen for a suitably qualified candidate to join a team of dynamic and friendly sonographers. The work is varied, enabling a good scope of advanced practice. In general medical ultrasound sonographers cover abdominal, vascular, small parts, paed hip and MSK. Training is available in these areas subject to service need and CPD is actively encouraged. We are also supporting a Consultant Sonographer in the department and this new extended scope band 8a role further demonstrates the recognition for sonographer progression here at the L&D. We recognise the need to reduce the risk of RSI and have appropriate ergonomic equipment, breaks, varied lists and monthly Alexander Technique sessions funded by the department.

To discuss this post in more detail or to arrange an informal visit please contact Amanda Houghton (General Medical Ultrasound Manager) on 01582 498159 or email amanda.houghton@ldh.nhs.uk.
