Persönlichkeiten wie Sie.

The Luzerner Kantonsspital (LUKS) is the largest central hospital in Switzerland. We look after the population around the clock, from basic care to highly specialized medicine. Momentarily, we are searching for a Radiation Therapist - Radio Oncology 100% (full time)

Radiation Therapist - Radio Oncology 100% (full time)

**Ihr Wirkungsfeld**
- Deliver appropriate patient treatment; Prepare and position patients and select anatomic parameters accurately. Maintain detailed records of all therapy sessions.
- Carry out all modern radiation techniques, ex: DIBH, SBRT, SRS, SRT, Gating.
- Responsible for the creation of intensity-modulated (IMRT / VMAT), 3D-conformal and stereotactic radiation plans.
- We have a newly built satellite station-Radio Oncology department in the Zug Cantonal Hospital and a modern equipped workplace based on Varian equipment (Varian Linacs, Canon CT and a Varian Eclipse planning system).

**Ihre Erfahrungen**
- You have an education as a qualified Radiation Therapist and at least two years of experience in radiation therapy and possibly in treatment planning with the above mentioned techniques.
- You are willing to interact with patients and learn the German language.
- You have an open, dynamic personality and have a high level of social competence. You’re flexibility and creativity helps you to deal with challenging situations.
- You are used to working independently, precisely and efficiently and feel comfortable in an inter-professional and international team.

**Ihre Perspektiven**
- You can expect a challenging, responsible and exciting workplace in an international, growing team.
- We provide further and advanced training opportunities.
- You profit from numerous benefits at the largest employer in central Switzerland.

**Ihr Weg zu uns**
