

Overseas Conference Grant (Legacy Fund) Established in 2016 Criteria for Applications

Introduction

The College of Radiographers (CoR) Overseas Conference Grant (Legacy Fund) has been established following receipt of a generous donation and will be used to support two areas of work:

Part 1: Overseas Conference Grant

This grant is available to qualified members of the Society of Radiographers and to educators who are not radiographers but who promote radiographic education; applicants may apply individually or as a small team.

The grant is designed to support the presentation of research and/or service evaluation findings as an oral paper at an international conference.

Successful applicants will agree to prepare an article for publication in *Synergy News* or *Imaging and Therapy Practice* on their experience, and are encouraged to publish the findings of their work in *Radiography*.

Applications for funding to the value of £1,000 will be considered although, for exceptional applications, more may be available.

There will be two grant calls per year – one in April and one in October – with one successful allocation in each round. Deadlines for applications will **5pm on the last Friday of April**, and **5pm on the first Monday of October** each year.

Criteria for applications

Radiographers wishing to be considered for this grant must:

- have been in continuous membership with the Society of Radiographers for a minimum of two years at the date of application for the grant;
- hold current registration with the Health and Care Professions Council (HCPC); and
- be prepared to act as an ambassador for the Society and College of Radiographers during the conference visit and at all times in relation to the receipt and use of the grant.

Educators who are not radiographers wishing to be considered for this grant must:

- be prepared to act as an ambassador for the Society and College of Radiographers during the conference visit and at all times in relation to the receipt and use of the grant.

NB Unfortunately, we are unable to fund applicants who have previously received overseas conference grant funding.

Applications

Those wishing to apply for the grant are required to complete the accompanying application form and submit this alongside a short CV (for each applicant if applying as a team) and a manager's letter of support by the deadline in April or October.

The application must include detailed anticipated costs, covering travel, accommodation, subsistence, and other anticipated expenditure.

NB Funding will not be released until notification has been received from the conference organisation committee confirming that the abstract has been accepted for presentation as an oral paper.

Successful individuals will be required to sign and adhere to the Society and College of Radiographers' terms and conditions for the grant.

Part 2: Eponymous Lecture

The Legacy Fund will also support an invited speaker to deliver one of the College of Radiographers' eponymous lectures.

A recommendation will be made by the College Board of Trustees (CBoT) in relation to an overseas speaker.

The grant for this invited speaker will cover travel and accommodation costs at the discretion of CBoT.
